PROFESSIONAL SUMMARY

Computer Science Engineering student skilled in Java, Python, SQL, DBMS, and Web Development with hands-on experience in automation projects and hackathons. Interested in software engineering, backend development, and scalable applications.

EXPERIENCE

Intern

2026 - 2026

Krytil

- Analytical and Innovative Computer Science Engineering student with strong knowledge of Data Structures, DBMS, OOPs, Computer Networks, and Web Development.
- Skilled in C, Java, Python, HTML, CSS, JavaScript, SQL, and Git with hands-on project development experience.
- Passionate about problem-solving, software development, and learning emerging technologies to build efficient and scalable solutions.

SKILLS

Programming Languages: Java, Python, C

Web Technologies: HTML, CSS, JavaScript

Database: SQL, DBMS

Core Subjects: Data Structures, OOPs, Computer Networks, Operating Systems

Tools: Git, GitHub

Other Skills: REST API Development, Cloud Computing

PROJECTS

Automatic Toll Gate System

I developed an automatic toll gate system that detects payment automatically and opens the gate when a vehicle passes through. This project helped me gain practical experience in automation, sensors, and system design while improving my problem-solving and technical skills.

ACHIEVEMENTS

- 1st place in rnsit hackathon

CERTIFICATIONS

- Aws — Amazon web service
- Rnsit hackathon — Rnsit
- Nie hackathon — Nie

EDUCATION

Bachelor of Engineering in Computer Science and Engineering in Computer science and engineering Oct 2028

Vidyavardhaka college of engineering

GPA: 7
